

In 1920, Victor A. Laciny moved his family to Birmingham, Ala. & listed his occupation as V-Pres-Gen. Manager of South Milk Machinery Co. It is thought he left Laciny Bros. because he was offered a better job and was very independent and didn't like to take orders.

In 1928 he & family are listed as living in Washington, DC.

In 1931 his employer was listed as Southern Dairies where he made copper/German silver vats for ice cream.

In 1934 he is listed in the directory of Birmingham again and started his own company, V A & Co. It didn't last too long as he wasn't a business man.

A 1935 directory shows him back in Washington DC where he did copper work in his basement. He did custom work for Senate Beer & Arrow Beer, as well as Fleischmann Yeast.

Victor A Laciny's son, Victor W., was a Sheet Metal Mechanic and had his own company, Customaire Metal Specialty Co., Inc. in Cherry Hill, NJ. (1963-1978).

The pictures below are from Customaire.

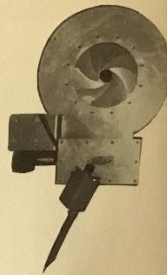

VICTOR W. LACY

**INNOVATIVE DESIGNS**

Specially designed remote controlled iris balancing valve used for nylon processing, air conditioner systems. Customaire designed and constructed these special valves for the nylon industry and Celanese Corporation plants throughout the U. S. A., Brasil and Canada.

**ENCLOSURES**

Completed Customaire manufactured, sheet metal terminal enclosures used by McCloskey & Co. and Turner Construction Co. on recently constructed high rise buildings.

Checking the volume damper linkage on the face of a Customaire-fabricated dehumidifier.

## DUCTWORK & SPECIALTIES

A complete sheet metal fabrication shop which relies on the most modern equipment . . . . .

SOLARTEMP's Customaire Metal Specialty Company has one of Delaware Valley's most complete sheet metal fabricating facilities. Housed in a shop of over 25,000 square feet is a wide range of major equipment used for metal fabrication of stainless steel, galvanized steel, copper and monel. Working in conjunction with the engineering staff of SOLARTEMP, Customaire manufactures equipment designed for heating, air conditioning and industrial processes.

Because of Customaire's equipment capabilities, the company is often called upon to solve specialty problems for other contractors as well as owners in the Greater Delaware Valley area. They have also manufactured prefabricated assembly systems which have been exported to governmental communications and space tracking installations around the world.

### OTHER SPECIALTIES

- DEHUMIDIFIERS
- AIR WASHERS
- COIL CASINGS
- HIGH PRESSURE COIL CASINGS
- SPECIAL AIR HANDLING UNITS
- PRE-INSULATED CASINGS
- FUME WASHERS
- FILTER BOXES, DAMPENERS & BYPASS SECTIONS
- INDUSTRIAL HEAVY GAUGE, ROUND & RECTANGLE
- BLOW PIPES, STACKS, HOPPERS, OVENS, CASINGS, PLENUMS, DAMPENERS AND DOORS
- MOISTURE ELIMINATOR SECTIONS
- MOISTURE ELIMINATOR REPLACEMENT BLADES

. . . . . and the skilled hand-craftsmanship of union journeymen.
