Fourth Generation Joins Laciny Bros.

Above (l-r): Tim and Rob Laciny in the Laciny Bros. office.

Laciny Bros., Inc., St. Louis, Missouri, has announced that the fourth generation of the Laciny family has joined the company.

The 86-year-old custom fabrication company was started in 1916 by three brothers with a total investment of \$23.

Rob, 26, and Tim Laciny, 23, great-grandsons of the company's founder have joined the firm this spring.

Both are graduates of the University of Missouri and have completed CAD training.

To gain knowledge about the entire business, Rob and Tim will learn about the business from the ground up. Both will perform general shop labor, visit customers, learn office functions, work on projects at job sites and are being trained in design & engineering.

"We want to continue Laciny Brothers' reputation for quality workmanship and service in the coming years," noted Rob Laciny.

The company operates in a 65,000-sq.-ft. facility with 38 employees.

The company's services include: custom machinery; engineering/design; CNC machining; prototype/research & development; brake/forming; repair work; sanitary fittings and raw materials.

The company handles a wide range of projects from producing individual parts or tanks/hoppers to designing and manufacturing complete automated conveying systems.

"We can provide complete systems/lines, modify existing equipment, or integrate individual pieces of equipment," commented Bob Laciny, president.

Laciny Bros. serves a diverse range of industries throughout the Midwest including: food and beverage; pharmaceutical; baking; chemical; conveying equipment; material handling and packaging.

The company works with such materials as stainless steel, carbon steel, aluminum, nickel alloys, copper, brass, titanium and other special alloys.

Laciny Bros., Inc. can be contacted at: (314) 862-8330; Fax (314) 862-8332; 6622 Vernon Ave., St. Louis, Missouri 63130; www.lacinybros.com.
